

ARAVIND NATARAJAN

Quality Assurance Leader | AI-Driven Automation | Product & Release Strategy

India (Open to Remote / Relocation) | 7708866113 | Aravin4d@gmail.com | linkedin.com/in/natarajan-aravind

PROFESSIONAL SUMMARY

Quality Assurance Leader with close to **10 years of experience** across **Amazon, Brightcove**, and **o-to-1 mandates** for a Series A grocery delivery platform that raised **\$11M+**. Turns ambiguous, early-stage QA problems into governed, **AI-accelerated** processes that protect product quality and scale testing efficiency.

PROFESSIONAL EXPERIENCE

BUNCHA *US-based grocery delivery platform* Remote | May 2025 – September 2026
Quality Assurance Manager / Product

- Established o-to-1 QA governance, **taking release cadence from daily hotfixes to predictable bi-weekly deployments**, by defining team ownership, SDLC release gates, and PO-P3 severity frameworks.
 - Led end-to-end QA strategy** for the 3-store Meijer rollout, aligning product roadmaps, cross-functional engineering deliverables, and executive deadlines to **ship 1-hour delivery on schedule**, enabling **~370 daily orders and \$5,000+ in daily revenue**.
 - Reclaimed 1,300+ engineering hours a year** by building [Bytecast](#), a Claude-powered Chrome extension for one-click bug filing, and Forgeflow, an Android tool that auto-generates test scripts, for **\$14,800** in combined annual value.
 - Eliminated ~100K redundant daily service calls** by building a unified alerting platform (New Relic, Datadog) to catch runaway microservices and drive targeted fixes.
 - Compressed test-order creation from ~18 minutes to under 1 minute**, removing a **~\$30 per-test-order cost** in the process, by building a custom admin UI on live production data.
 - Cut SOS escalations from 4-6 a week to 3-4 a month** by authoring and enforcing a company-wide incident-severity framework.
-

BRIGHTCOVE *Global video and OTT streaming platform* Chennai, India | Dec 2021 – March 2025
Quality Assurance Engineer / Lead

- Directed APAC QA strategy solo, managing 3 contractors across **10 enterprise accounts**, including Spotify, AT&T, BBC, Cisco, and GM, and built a root-cause and triage process from scratch that **trimmed recurring issues over half and invalid defects 40%**.
 - Saved \$40,000+ a year** in rework and support costs by establishing standardized pre-production test gates as QA lead.
 - Reduced regression execution time from 10 hours to 4 hours per cycle**, reclaiming **20+ hours per release** through a risk-based testing strategy built with product.
 - Brought production rollback incidents down by over half** through tighter pre-release test planning and early defect detection.
 - Increased customer satisfaction (CSAT) scores by 20%** by improving release stability and production defect visibility.
-

AMAZON *Chennai, India* | Dec 2019 – Dec 2021
Sr. Associate, Quality Service

- Delivered zero launch-blocking auth defects** across **18 locales and 20+ device types** as a founding member of Alexa Identity QA launch operations.
- Redesigned the core regression suite from 1,100 test cases to 180**, bringing a full cycle down to **1 day and \$15,000 a year in testing costs**.

- **Collapsed daily after-hours reporting time from 2 hours to 20 minutes**, reclaiming **400+ hours a year**, by building a custom reporting automation script.
 - **Shrank bug-report field entry from 5 minutes to a single click**, freeing up **800+ hours across a 10-person team over two years**, by building a custom Tampermonkey script that also eliminated missing-detail rework between filers, reviewers, and developers.
 - Analyzed patterns across **950+ critical bugs and 2,000+ test cases** to rewrite defect-reporting standards, **dropping invalid rates under 1% and resolution time 20%**.
 - Drove cross-functional QA execution across **6 concurrent major projects and 28+ features**, managing a **team of 10+** and partnering daily with US-based leadership, developers, TPMs, and product across a full time-zone gap.
-

AMAZON *Chennai, India | June 2017 – Dec 2019*
Associate, Quality Service

- **Prevented critical launch blockers from reaching customers** by streamlining weekly regression passes for the Alexa mobile app across Android, iOS, and Fire Tablets.
 - **Expanded scope from a dedicated functional area of the Alexa app to full end-to-end Alexa Identity validation.**
 - **Earned 9 company awards in 2.5 years** and secured a **fast-track promotion to Senior Associate.**
-

CORE SKILLS & TOOLS

- **QA Leadership & Strategy:** 0-to-1 QA Governance, Release Management, Incident Governance (Po-P3), SDLC/STLC Integration, Hiring & Onboarding, Performance Reviews & 1:1 Mentoring, Vendor & Contractor Management, Stakeholder Management, Agile & Scrum
 - **Testing Methodologies:** Test Planning, Test Case Design, Risk-Based Testing, Regression, Functional, Compatibility, Cross-Platform & OTT Testing, Exploratory Testing, End-to-End (E2E) Validation, Sanity & Smoke Testing, User Acceptance Testing (UAT), Localization Testing, Root Cause Analysis (RCA)
 - **AI-Assisted QA Tooling:** Custom AI Tooling (Claude AI, LLM Prompt Engineering), Chrome Extension Development (Bytecast), Test Script Auto-Generation (Forgeflow), Tampermonkey Scripting, SQL
 - **Observability & APIs:** Datadog, New Relic (NRQL), Redis, RabbitMQ, Elasticsearch, Metabase, Browser stack & Lambda test, Postman, Swagger/REST APIs, Data Flow Validation, JMeter
 - **Platforms & Reporting Tools:** Mobile (iOS, Android, React Native), Web, Android TV, Jira, Confluence, TestRail, Xray, ClickUp, Git, Test Reports & Dashboards
-

EDUCATION & CERTIFICATIONS

Bachelor of Engineering (B.E.), Electronics and Communication Engineering

Sri Krishna College of Engineering and Technology | CGPA: 8.13

- Six Sigma Yellow Belt Certified
